EVALUATIONS:

No examines, assignment and process grading is on going and as per assignment due dates. Portfolios may be required mid and end term.

Mid-term number based upon assignments completed to date. Mid-term is an **indicator grade only for the student's reference** on his/her performance in the course. The weight between *In Class Process and Project Assignments* will reflect the portion of the class time spent in those areas of study.

In Class Process assignments reflects the activity in class that day and they will be short. Hence they will be due at the end of the specific class for marking. **(There will be no extensions for any**

reason) Failure to finish projects on time for class critiques will affect student's final evaluation. Students will be expected to invest a minimum of four hours a week in the class.

You have **two** Get Out of Jail Cards for this course. See guideline sheet for their use.

COURSE SCHEDULE/TENTATIVE TIMELINE:

During this course the student will:

1. Continue to perceive visual relationships in the environment and record these perceptions in terms of the elements of art (line, shape, value and texture)
2. Further identify and apply the principles of aesthetic unity (balance, rhythm, repetition, dominance and contrast/variety) to the organization of the elements of visual art.
3. Further manipulate the elements of visual art on a two-dimensional surface through using the principles of depth perception.

Exhibit an expanded working knowledge of the fundamental techniques and materials of drawing including the use of pencil, conté, pastels, graphite and charcoal.

The instructor directs course projects and/or assignments. Following an assignment's deadline, no further class time can be devoted, although students are encouraged to improve their work based on insights and comments expressed during class discussions and critiques. Students are expected to work outside of class time approximately 4 hours per week.
