OFFICE HOURS: Monday 13:00 – 14:30; Tuesday to Friday 11:30 – 13:00

PREREQUISITE(S)/COREQUISITE: Chemistry 30 or equivalent

TEXT/RESOURCE MATERIALS: Recommended textbook is Chemistry 8th Edition by Steven S. Zumdahl and Susan A. Zumdahl; required Lab manual is Introductory University Chemistry I (Chem 101 and 103), published by the University of Alberta, 2012/2013 edition.

CALENDAR DESCRIPTION: Lectures include stoichiometry, atomic structure and bonding, states of matter and intermolecular forces, chemistry of the elements.

CREDIT/CONTACT HOURS: 3 credits; 3 hours lecture +1 hour seminar + 3 hours laboratory per week; 105 hours in total

DELIVERY MODE(S): Lecture style presentation of material followed by practice problems/discussion in seminar. Laboratory provides hands-on experience.

OBJECTIVES (OPTIONAL): Students are introduced to the structure, bonding, and reactivity of chemical substances, focusing in particular on main-group elements. By drawing and naming 3-D molecules, and then based on structure, geometry, and forces students will be able to predict reactivity and properties in the gaseous, liquid, and solid phases. Students will gain an appreciation for the influence of chemistry in our lives and think critically about chemical issues.

TRANSFERABILITY: CH1010 to U of Alberta CHEM 101, 3 credits CH1010 to U of Calgary CHEM 201, 3 credits

For other transfer agreements, go to http://www.acat.gov.ab.ca/

** Grade of D or D+ may not be acceptable for transfer to other post-secondary institutions. Students are cautioned that it is their responsibility to contact the receiving institutions to ensure transferability

EVALUATIONS: Two term exams will be held (one in October weighted at 15%, one in November weighted at 20%); a final exam is scheduled by Student Services in December and weighted at 38%; weekly quizzes/assignments are weighted at 5%; laboratory reports are weighted at 12%; laboratory exam is weighted at 10%. A student must pass the laboratory portion to receive a passing grade in this course

student Responsibilities: Assignments will be electronically distributed on a roughly weekly basis. Complete solutions will be available a short while later. Solutions to quizzes will be posted a few days after the quiz is completed. Attendance to all lectures and seminars is strongly recommended. Laboratory attendance to each specific experiment is compulsory. A doctor's medical note is required for all excused absences.

Students must maintain an overall average of 50% or better to pass this course. You are encouraged to participate in class discussions and ask questions. Help is available outside the classroom.
