2. Scope

This Policy applies to all members of the NWP Learning Community. All members of the NWP Learning Community will be offered appropriate support with respect to issues of sexual violence, regardless of their role in the institution or the role of the person against whom an allegation is made.

3. Reason for Policy

The purpose of this policy is to outline NWP's commitment to addressing sexual violence and rape culture through survivor support, awareness, education, training and prevention programs, the appropriate handling of sexual violence reports or complaints, and fostering and promoting a culture of consent.

- j) **Sexual Assault:** Any kind of sexual contact without mutual consent.
- k) **Sexual Harassment:** A course of unwanted remarks, behaviours, or communications of a sexually oriented nature and/or a course of unwanted remarks, actions that promote gender-based violence, or behaviours or communications based on gender identity, gender expression, or sexual orientation, where the individual responsible for the remarks, behaviours or communications knows or ought reasonably to know that these are unwanted or demeaning.
- l) **Sexual Violence:** Any sexual act or act targeting a person's sexuality, gender identity or gender expression, whether the act is physical or psychological in nature that is committed, threatened or attempted against a person without the person's consent. This includes, but is not limited to sexual assault, sexual harassment, stalking, indecent exposure, voyeurism, sexual exploitation, degrading sexual imagery, distribution of sexual images or video of a community member without their consent, and cyber harassment or cyber stalking of a sexual nature.
- m) **Student:** refers to an individual who has been admitted to NWP on either a part-time or a full-time basis.
- n) **Survivor:** An individual who has been subjected to sexual violence. They are referred to as a complainant when they file a report or complaint under this policy. For the purposes of this policy, the term "survivor" is used. People who have been subjected to sexual violence have the right to choose how they want to be referred to. There is a lot of debate over the use of victim or survivor; in the end it is up to the individual to choose how they want to be referred to.

5. Sexual Violence Policy

NWP is a diverse community. Sexual Violence impacts all genders, but it does not impact equally. The concept of intersectionality recognizes that each of us belongs to many different social groups and has many different identities. Some of these identities are in the margins and some are in the mainstream of society. Intersectionality recognizes that we're not one identity. As a result, efforts to address issues of Sexual Violence needs to be grounded in an understanding that each person's experience will be affected by many factors such as their sex, ancestry, race, ethnicity, language, ability, faith, age, socioeconomic status, sexual orientation, and gender identity.

This policy is guided by the following principles:

- a) NWP recognizes that the institution plays a significant role in raising awareness/ educating NWP community about sexual violence, providing support to survivors, and creating a clear process for disclosure and filing a report. NWP is committed to providing and maintaining an environment in which sexual violence is recognized to be unacceptable and is not tolerated.
- b) NWP is committed to making available programs and resources to educate its community on the prevention of and response to sexual violence.
- c) NWP is committed to ensuring that those who disclose an experience of sexual violence are believed, and that their right to dignity and respect is protected throughout the process of disclosure, fact finding and institutional response.

- d) NWP is committed to treating individuals who disclose sexual violence with compassion recognizing that they are the final decision-makers about their own best interests and will be included in every step of the decision-making process.
- e) NWP is committed to responding to and addressing incidents and complaints of sexual violence involving its students, staff, and faculty, and to ensuring that those members of the community who are affected by sexual violence receive the necessary support.

6. Consent

The institution will work to promote a consent culture on campus based on the following principles:

- a) Consent is active, not silent or absence of “no”. Consent cannot be assumed or implied.
- b) Consent must be freely given. It cannot exist under conditions of coercion. Consent cannot be obtained through implicit or explicit threats of violence, abuse of power, trust or authority, or threat of releasing sensitive information.
- c) Consent to one sexual act does not imply consent to a different sexual act.
- d) Consent is an ongoing process and can be rescinded or withdrawn when a person expresses, by words or conduct, a lack of agreement to continue to engage in the activity.
- e) Consent is required regardless of the parties’ relationship status or sexual history together.
- f) Consent cannot be given by a person who is incapacitated by alcohol or drugs or who is unconscious or otherwise incapable of providing consent.
- g) Impaired judgment on the part of the person accused that leads them to think or believe there was consent is not an excuse for an act of sexual violence.
- h) It is the responsibility of the person who wants to engage in physical contact or sexual activity to make sure that they have consent from the other person(s) involved.

In Canada, the Criminal Code sets the age of consent to sexual activity at 16 years, with some exceptions. By law, an individual under the age of 18 cannot consent where there is a relationship of trust, authority, or dependency such as an instructor, coach, tutor, or mentor.

All sexual acts without consent constitute sexual assault and are a violation of this Policy.

7. Disclosure

- 7.1 A disclosure does not result in a report being made and does not initiate a legal process to address the alleged sexual violence incident. If complainant wants to move forward to formalize the disclosure, the complainant must file a formal report (See section 9).
 - 7.1.1 The decision to disclose and the decision to report are separate decisions. The institution recognizes that such disclosures are often shared in confidence, that the complainant may have an expectation of confidentiality, and that in many cases confidentiality is essential for complainants to come forward.
 - 7.1.2 The person to whom the disclosure is made may consult with Director, Human Resource or Associate Dean, Student Life for advice. These individuals are expected to hold such information in confidence, except as directed by the complainant or as indicated by the provisions in the “Confidentiality and Privacy” section of this Policy.

8. Confidentiality and Privacy

- 8.1 The institution will treat disclosures and reports of sexual violence incident in a confidential manner and in accordance with the Freedom of Information and Protection of Privacy. The institution will limit sharing of information to those within NWP who need to know the information for the purposes of implementing this Policy, including providing accommodation, interim conditions, and interim measures, and facilitate third-party investigation and address the decision/recommendation resulting from the third-party investigation. For example, where a Complainant wishes to make a report, fairness to the respondent will require disclosure of the Complainant’s identity and the material allegations being made.

- 8.2 Confidentiality cannot be maintained where information needs to be disclosed to another party include where:
- there is an imminent risk to the health and safety of another individual,
 - procedural fairness or legislation requires a person or body to be provided information; or
 - where NWP is unable to initiate an investigation under this Policy.
- 8.3 Whether NWP can maintain confidentiality in each circumstance will be determined on a case- by-case basis by the institution, in consultation with any other parties deemed relevant. In circumstances where confidentiality cannot be maintained, the confidential information will be disclosed only to those parties, and only to the extent necessary, to comply with the source of the obligation.

Any breach of confidentiality will be communicated to parties involved.

- 9.7 Neither party is required to attend any face-to-face meetings during this process unless they both agree to do so. This facilitated process may result in a written agreement that could include behavioural expectations, agreement to no contact, or an apology.
- 9.8 Reporting sexual violence to the institution does not prevent a person from reporting through the criminal justice system (i.e., police) or through other available processes. Equally, reporting through police or other mechanisms does not prevent a person from also reporting to the institution.
- 9.9 NWP will take reasonable steps to protect Complainants and others who participate in an institution process that is addressing allegations of sexual violence from retaliation, including but not limited to: advising individuals in writing of their duty to refrain from committing an act of reprisal, and sanctioning individuals for a breach of that duty. NWP may also address the potential for reprisals by providing an accommodation appropriate in the circumstances. Threats of or acts of retaliation will be treated as incidents of Sexual Violence.
- 9.10 Complainant who is a minor will not face disciplinary action for consumption of drugs and alcohol associated with the incident.
- 9.11 Reports that are filed will be sent to the Department of Human Resources to facilitate a third-party investigation.

10. Investigation

- 10.1 Once a report is received by Department of Human Resources, if complaint does fall within the NWP jurisdiction, then there will be a third-party investigation. This helps to ensure that the investigation is unbiased.
- 10.2 Third party investigation is a process where a neutral party not affiliated with NWP is retained to investigate the complaint. A neutral third-party conducts interviews and gathers evidence to determine what events took place and make recommendations to address those events. Independent investigations must respect the rights and need for procedural fairness for all parties involved. Third party investigators conducting the investigation will have sensitivity training
