**The Board as a whole – not an individual Board member - has a responsibility to regularly monitor the performance of the President as outlined in the policies on Board-President Relationship. If there is a reasonable appearance of policy violation, even though a particular policy is not scheduled for monitoring, the Board may choose to request a monitoring report at any time. The Board may also use the occasion of a concern to re-evaluate the adequacy of its policy to address the issue raised.**

1. Conditions which may trigger a request for monitoring beyond the normal schedule may include:
  - 1.1. A Board Member has been contacted regarding a complaint. After the Board Member has followed the procedure for handling operational complaints (See Policy on Handling Operational Complaints, GP-14), the individual again contacts the Board Member indicating that the complaint still exists, and in the Board Member’s opinion the incident appears to be a potential policy violation.
  - 1.2. One or more Board Members receive complaints or become aware of a number of similar instances that taken together raise questions of general policy violation.

  - 2.4. If the President’s interpretation falls within “any reasonable interpretation,” and there is evidence of compliance with that interpretation, the matter shall be dropped at the Board level. The President will handle the issue directly with the complainant.
  - 2.5. If the President’s interpretation falls outside of “any reasonable interpretation,” or there is a clear violation of a reasonable interpretation, the Board shall determine the degree of seriousness of the issue and deal with the President regarding performance.
