

**Emergency Services Department
COURSE OUTLINE – Fall 2024**

EM2400 (xx): Physical Examination and History Gathering – 3 (3-0-0) 45 Hours for 15 Weeks

Northwestern Polytechnic acknowledges that our campuses are located on Treaty 8 territory, the ancestral and present-day home to many diverse First Nations, Metis, and Inuit people. We are grateful to work, live and learn on the traditional territory of Duncan's First Nation, Horse Lake First Nation, and Sturgeon Lake Cree Nation, who are the original caretakers of this land.

We acknowledge the history of this land, and we are thankful for the opportunity to walk together in friendship, where we will encourage and promote positive change for present and future generations.

INSTRUCTOR: Carolyn Harrington **PHONE:** 780-539-2811
OFFICE: Remote **E-MAIL:** CHarrington@nwpolytech.ca
OFFICE HOURS: As posted in course or contact instructor to set up an appointment

CALENDAR DESCRIPTION: Obtaining an accurate health history and performing a systematic physical examination is essential in paramedicine practice. Paramedics must be able to accurately describe and document assessment findings. This course will support students in developing efficient, thorough, and systematic histories and physical examinations of patients who are in different states of physical, mental, and emotional health.

PREREQUISITE(S): None

COREQUISITE(S): EM1000, EM1020, EM2100, EM2300, WR1100

REQUIRED TEXT/RESOURCE MATERIALS:

The resources listed in this section are required.

Alberta College of Paramedics (2016). Code of Ethics and Standards of Practice. Retrieved from: <https://abparamedics.com/wp-content/uploads/2020/01/Paramedics-Code-of-Ethics.pdf> and <https://abparamedics.com/wp-content/uploads/2021/08/Standards-of-Practice.pdf>

Jarvis, C., Browne, A. J., MacDonald-Jenkins, J., & Luctkar-Flude, M. (2024). Physical Examination & Health Assessment (4th Edition). Elsevier Canada. (Bundle including text, lab guide, pocket guide)

Students are responsible for all fees associated with ProctorU, a live proctoring service for online exams. Fees are paid when you schedule your exams through ProctorU.

Pricing per exam is as follows:

60 minutes or less - \$16 USD

61-120 minutes - \$25 USD

121 - 180 minutes - \$31 USD

SUPPLEMENTAL LEARNING RESOURCES

The resources listed in this section are optional but provide additional information to support learner success.

Instructor handouts and case studies, articles, journal references, and websites identified by Instructor. Students are encouraged to utilize research and other resources to augment their learning and share resources with classmates by posting in the on-line discussions.

DELIVERY MODE(S):

1. Online delivery of content
2. Pre-class and assigned readings.
3. Class discussions
4. Group exercises/Laboratories
5. Online activities
6. Classroom case studies

LEARNING OUTCOMES:

1. Identify behaviors that establish rapport, trust, and convey respect with patients.
2. Identify factors that facilitate or hinder the interviewing process.
3. Identify the components and structure of a history.
4. Obtain and document an accurate health history.
5. Identify adaptations for history-taking approach with patients across the life span and in challenging situations.
6. Develop a systematic approach to physical examination.
7. Demonstrate an understanding of the assessment techniques used in various physical examination procedures.
8. Demonstrate an understanding of the normal physical findings relative to differences in age, gender, and body mass.
9. Distinguish between normal and abnormal physical findings.
10. Develop complete and accurate documentation.

TRANSFERABILITY:

Please consult the Alberta Transfer Guide for more information. You may check to ensure the transferability of this course at the Alberta Transfer Guide main page <http://www.transferalberta.alberta.ca>.

**** Grade of D or D+ may not be acceptable for transfer to other post-secondary institutions. Students are cautioned that it is their responsibility to contact the receiving institutions to ensure transferability**

EVALUATIONS:

To receive credit for this course, students must complete all course requirements as listed.

Type of Assessment	Description of Assessment	Value
Assignment #1	Topic Assignment. Instructor will provide topic, instruction and evaluation criteria.	15%
Exam	Midterm Examination covering content in Modules 1-7.	25%
Assignment #2	Topic Assignment. Instructor will provide topic, instruction and evaluation criteria.	25%
Exam	Final Comprehensive Exam covering modules 1-13	35%
TOTAL		100%

Assignment 15%

To be provided by the instructor. Assignment instructions and evaluation criteria will be posted in the course. Due October 7th, 2024 by 23:39 hours.

Midterm Exam 25%

This exam may consist of multiple choice and matching questions.
October 21st, 2024 (time of exam to be determined)

Assignment 25%

To be provided by the instructor. Assignment instructions and evaluation criteria will be posted in the course.
Due December 2nd, 2024 by 23:39 hours.

Final Exam 35%

This is a comprehensive exam that will cover all lessons and may consist of multiple choice and matching questions.
December 18th, 2024; Time AM (TBD)

GRADING CRITERIA:

Please note that most universities will not accept your course for transfer credit **IF** your grade is **less than C-**. A minimum of a C- must be obtained to successfully pass EM2400.

Grading Chart for courses with Alpha Grading:

Alpha Grade	4-point Equivalent	Percentage Guidelines	Alpha Grade	4-point Equivalent	Percentage Guidelines
A+	4.0	95-100	C+	2.3	67-69
A	4.0	85-94	C	2.0	63-66
A-	3.7	80-84	C-	1.7	60-62
B+	3.3	77-79	D+	1.3	55-59

B	3.0	73-76	D	1.0	50-54
B-	2.7	70-72	F	0.0	00-49

COURSE SCHEDULE/TENTATIVE TIMELINE:

Onsite week attendance - as per onsite week schedule

Date/Session	Module/Unit & Topic/Activity
Week 1	Module 1 Critical Thinking and Evidence-Informed Assessment, Health Promotion and Cultural and Social Considerations in Health Assessment
Week 2	Module 2 The Interview and Health History
Week 3	Module 3 Assessment Techniques
Week 4	Module 4 Skin, Hair, Nails
Week 5	Module 5 Head, Face, and Neck, Including Regional Lymphatic System and Nose, Mouth, & Throat
Week 6	Module 6 Eyes and Ears
Week 7	Module 7 Thorax and Lungs
Week 8	Module 8 Heart and Neck Vessels, Peripheral Vascular and Lymphatic Systems
Week 9	Module 9 Abdomen
Week 10	Module 10 Musculoskeletal System
Week 11	<i>Fall Break – No classes</i>
Week 12	Module 11 Neurological System
Week 13	Module 12 Male and Female Breast, Genitourinary Systems and Regional Lymphatic System
Week 14	Module 13 The Complete Health Assessment: Putting It All Together
Week 15	Final Exams

*Instructor reserves the right to change due dates and weeks of lesson plans, assignments, and exams as necessary to comply with yearly calendar changes. Each year, the instructor will inform the students with any schedule changes.

GENERAL COURSE EXPECTATIONS:

Participation is essential for success in this class, and if a student misses a class/lab it is the student’s responsibility to obtain ANYTHING missed during class/lab. The student will be assigned a mark of zero for those assignments, exams, quizzes, labs, etc. missed. IF the student contacts the instructor PRIOR to missing any of the above forementioned, and IF the student has an acceptable excuse (the validity of the excuse is at the discretion of the instructor and will require documentation i.e., doctor’s note), the student may be excused without being deducted any marks. Missed onsite lab days may come at an additional expense to students regardless of the circumstances associated with not attending.

STUDENT RESPONSIBILITIES:

Enrolment at NWP assumes that the student will become a responsible citizen of the Institute. As such, each student will display a positive work ethic, take pride in, and assist in the maintenance and preservation of Institute property, and assume responsibility for their education by researching academic requirements and policies; demonstrating courtesy and respect toward others; and respecting instructor expectations concerning attendance, assignments, deadlines, and appointments.

NWP Policies:

It is your responsibility to be familiar with the information contained in this Course Outline and the Paramedic student handbook and to clarify any areas of concern to the instructor. It is also your responsibility to be familiar with NWP Policies.

Student attendance:

Class attendance is useful for two reasons. First, class attendance maximizes a students' learning experience. Second, attending class is a good way to keep informed of matters relating to the administration of the course (e.g., the timing of assignments and exams). Ultimately, you are responsible for your own learning and performance in this course.

Pre-reading

Ensure that you do the pre-reading early, so that you have time to think about what you have read before the exam and before the class if you wish.

Preparing questions

Make a note of anything you are not clear about and prepare a question to ask early in the class to clarify your understanding. This will demonstrate your interest in the topic and indicate to the instructor that you have done the required reading.

Preparing responses

When you read, try to engage with the ideas critically and actively. Make a note of any ideas about which you have strong opinions, positive or negative. Think about how you would refer to these ideas during the class or express your views about them. What language would you use?

Note-taking during discussions and Class time.

Classes can be a very useful source of ideas on a topic, not only from the instructor, but also from other participants. Make a note of any ideas which may be useful to you in writing assignments or broadening your reading.

In most small classes there is an expectation that you will contribute actively to the discussion, and not simply be a 'silent participant'. In some courses marks are given for active participation in class.

Learn people's names.

Make a conscious effort to learn -and use -the names of all the other people in the class. This includes the students at the alternate site while using video conferencing.

Using visualization

Every class you attend is also a preparation for the next class. At the end of a class, play it back in your mind, not just for the content and ideas, but remembering responses, and the sort of language used. Then, before the next class, think about the questions and comments you have thought of, and visualize in your mind how the discussion will go. Most importantly, imagine yourself taking part: using people's names, getting their attention, asking questions, and commenting on what you've read and on what other people are saying. The more positively you do this, the more it will help you in class.

Exams, Quizzes and Assignments

The instructor of the course will provide the date of all exams, quizzes, and assignments for the course during the first week of instruction. This course may require students to write remotely proctored examination(s), either online or within an approved location with a proctor present. Review the Paramedic Student's Handbook for specific information regarding proctored assessment(s).

Onsite Weeks

Course content delivery, quizzes, exams, and assignments may occur during onsite weeks. It is the student's responsibility to attend the onsite week and meet academic timelines/requirements.

STATEMENT ON ACADEMIC and NON-ACADEMIC MISCONDUCT:

Misconduct will not be tolerated. For a more precise definition of academic and non-academic misconduct and its consequences, refer to the Student Rights and Responsibilities policy available at <https://www.nwpolytech.ca/about/administration/policies/index.html>.

**Note: all Academic and Administrative policies are available on the same page.

Additional Information:

Northwestern Polytechnic provides various academic support services to support your journey to success. Please be aware that personal counseling, peer tutoring, learning library services, Elders and mentors, and disability services are provided at your campus. Please inquire about contact details or locations at the Information desk.

USING PROCTORU:

This course uses ProctorU Live for online exams. To utilize this service, you are required to complete the following steps:

- Create a ProctorU account by clicking the ProctorU link in the course.
- Download and install the Guardian Web Browser, Google Chrome, and the ProctorU extension.
- Schedule each exam at least 3 days (72 hours) in advance. If you miss this deadline, you cannot take the exam.
- Pay for the proctoring service. The fees are exclusively your responsibility and in no event shall be the responsibility of Northwestern Polytechnic.

For more detailed instructions [click here](#), and for video instructions [click here](#).

Before each exam, you must complete a room scan with your web camera, during which you will show your surroundings to a live proctor.

The invigilator will ask to view (but not collect or store) your student identification to verify your identity and will remotely access your computer to unlock the exam. When monitoring your actions via video streaming, the invigilator may possibly record your actions if they suspect academic integrity behavioural issues. You will be verbally notified if/when recording begins.

The collection of and access to the personal information listed above is permitted under subsection 33(c) of the *Freedom of Information and Protection of Privacy Act*, RSA 2000, c F-25, which states, "No personal information may be collected by or for a public body unless that information relates directly to and is necessary for an operating program or activity of the public body." In addition, subsection 39(4) states, "A public body may use personal information only to the extent necessary to enable the public body to carry out its purpose in a reasonable manner."

Records Retention: Any video records of you created by ProctorU will be kept by ProctorU for a maximum of 7 days in order to make a decision about any possible academic integrity infraction, after which time it shall be permanently deleted. All other personal information collected and stored by ProctorU within your profile account will be permanently deleted if the account has not been used after one year.

Consent to Store Personal Information Outside Canada

ProctorU is an American company. An agreement is in place between ProctorU and Northwestern Polytechnic by which ProctorU will take reasonable steps to protect your personal information from unauthorized access and disclosure. Information about how ProctorU protects your privacy can be found in their [Privacy Policy](#).

By using the ProctorU service via Northwestern Polytechnic, you consent to the storage of and access to your personal information outside of Canada.

This consent is in effect from the day you register with ProctorU and expires one year after completion of your exam.

Additional privacy and liability information regarding the use of ProctorU is available on the NWP website.

Course Topics:

- Critical Thinking and Evidence-Informed Assessment
- Health Promotion in the Context of Health Assessment
- Cultural and Social Considerations in Health Assessment
- The History and Interviewing Process
- Mental Health Assessment
- Substance Abuse
- Interpersonal Violence Assessment
- Assessment Techniques and Equipment
- General Survey, Measurement and Vital Signs
- Pain Assessment
- Nutritional Assessment
- Skin, Hair and Nails
- Head, Face, and Neck
- Eyes
- Ears
- Thorax and Lungs
- Heart, Neck Vessels, and Peripheral Vascular System
- Abdomen
- Musculoskeletal System
- Neurologic System
- Female Breast and Genitourinary Systems
- Male Breast and Genitourinary Systems
- The Abdomen
- Lymphatic System
- Putting it all Together
