

**Emergency Services Department
COURSE OUTLINE – Spring 2025
EM1900 (A4): Clinical Placement – 1 (0-0-0-36) 36 Hours for 1 Week**

Northwestern Polytechnic acknowledges that our campuses are located on Treaty 8 territory, the ancestral and present-day home to many diverse First Nations, Metis, and Inuit people. We are grateful to work, live and learn on the traditional territory of Duncan's First Nation, Horse Lake First Nation and Sturgeon Lake Cree Nation, who are the original caretakers of this land.

We acknowledge the history of this land and we are thankful for the opportunity to walk together in friendship, where we will encourage and promote positive change for present and future generations.

INSTRUCTOR: Taegan Pomeroy **PHONE:** (780) 539-2874 & (780) 882-5264
OFFICE: HEC 331 **E-MAIL:** tpomeroy@nwpolytech.ca
OFFICE HOURS: M-F 0800-1600 by appointment only

CALENDAR DESCRIPTION: The Clinical Placement Course is designed to provide the Primary Care Paramedic (PCP) student exposure to diverse patients across the lifespan to facilitate application of newly acquired knowledge and skills into practice in a health care facility Emergency Department.

The clinical placement provides the opportunity for the student to incorporate assessments, pharmacology, and skills in the treatment of patients of all ages. Students will act as a member of the multidisciplinary health team and develop an awareness of the roles and responsibilities of other health professionals while developing strategies to work effectively within a team setting.

Students are assigned to an RN, LPN or ACP for the duration of their placement and will perform skills under direct and indirect supervision. While on placement, the student acts as a role model for the profession and ambassador for Northwestern Polytechnic, while integrating the Code of Ethics and Standards of Practice into their professional practice. The student will maintain the highest level of professionalism throughout the placement while integrating leadership, history, assessment, clinical presentations, and diagnostic findings into the treatment of the patient.

PREREQUISITE(S): A GRADE OF B- (70 -72) IN EM2020, EM2030, EM2500, BLS CERTIFICATE, IT'S YOUR MOVE, AHS Connect Care Training
COREQUISITE(S): EM1800

REQUIRED TEXT/RESOURCE MATERIALS:

The resources listed in this section are required.

Alberta College of Paramedics (2016). Code of Ethics and Standards of Practice. Retrieved from: <https://abparamedics.com/wp-content/uploads/2020/01/Paramedics-Code-of-Ethics.pdf> and <https://abparamedics.com/wp-content/uploads/2020/04/Paramedics-Standards-of-Practice.pdf>

CompTracker™ <http://www.studentlogbook.com/>

Student must have an iPad or Android Tablet in order to use the Student Log Book software.

PCP Student Clinical Placement Manual

Students are encouraged to use ALL the program texts and resources as references for study and review as they proceed through their placements. Students are reminded that they have access to the courses they have taken on-line and can use the modules, assignments, and discussions for review.

SUPPLEMENTAL LEARNING RESOURCES

The resources listed in this section are optional but provide additional information to support learner success.

Instructor handouts and case studies

Articles, journal references, and websites identified by Preceptor.

Physicians, nurses, PCPs and ACPs can be very helpful in facilitating a learning environment and can be a good source of knowledge in the many aspects of emergency medicine.

Students are encouraged to utilize research and other resources to augment their learning and share resources with classmates by posting in the on-line discussions.

DELIVERY MODE(S):

1. Class discussion
2. Onsite – predetermined placement location
3. Online activities
4. CompTracker

LEARNING OUTCOMES:

1. Consistently integrates the Alberta College of Paramedics, Code of Ethics and Standards of Practice throughout the placement.
2. Apply knowledge and skills to diverse patients across the lifespan.
3. Applies principles of workplace safety, including recognition and reporting requirements for adverse events or close calls and overall promotion of a culture of safety.
4. Integrate history, assessment, clinical presentation, and diagnostic findings into the treatment of the ill or injured patient.
5. Demonstrate proficiency in clinical competencies.
6. Develop an awareness of the roles and responsibilities of multidisciplinary health care professionals, and the strategies for working as a member of that team.
7. Demonstrate pertinent, complete, and accurate documentation and reporting.
8. Work collaboratively as a member of the interdisciplinary health care team.
9. Demonstrate principles of cultural safety in all interactions with the patient, public and the health care team.
10. Accept constructive feedback and integrate as appropriate to improve performance.

TRANSFERABILITY:

Please consult the Alberta Transfer Guide for more information. You may check to ensure the transferability of this course at the Alberta Transfer Guide main page <http://www.transferalberta.alberta.ca>.

**** Grade of D or D+ may not be acceptable for transfer to other post-secondary institutions. Students are cautioned that it is their responsibility to contact the receiving institutions to ensure transferability.**

EVALUATIONS:

The PCP student must demonstrate “Proficiency” in an acceptable clinical setting. Individual evaluation of physical application skills is required through guidance and evaluation by the preceptor. Students must be under direct supervision each time “Proficiency” is being evaluated.

The guiding principles for supervision are:

1. That patient’s safety is paramount.
2. That the student be provided with maximum access to learning opportunities if patient safety is not compromised.

Once the student has demonstrated “Proficiency” in the specific competency, indirect supervision is allowed providing the preceptor is able to provide immediate support and intervention as required.

Student forms are reviewed by the Placement Learning Facilitator for final assessment of the student’s placement.

The clinical evaluation is structured to be a competency-based evaluation to objectively confirm the ability of the student to successfully complete each of the identified competencies. There are several requirements to the evaluation, both on a daily basis as well as on regular basis throughout the placement in the evaluation of the clinical placement. The students and/or preceptor must complete each requirement.

The specific requirements involved in the evaluation include the following:

- Student Attendance
- Clinical Competencies
- Competency Intervention Forms (if required)
- Preceptor Placement Evaluation
- Student Placement Evaluation
- Hospital Placement Checklist
- Placement Goals

Students are responsible for reviewing all evaluation requirements and ensuring that the appropriate procedures for completing the requirements are being followed by themselves and their preceptors.

To receive credit in EM1900, Clinical Placement, the learner must complete all course requirements, achieve proficiency in each ‘C’ competency a minimum of two (2) times, and complete the minimum hours required. A passing grade means that the student was able to satisfactorily meet all requirements in the course. Course credit will not be given if only parts of the course requirements have been completed.

Once students have documented competencies, and the preceptor approves them, the Practicum Coordinator reviews the documentation to validate attainment of the competency (e.g., appropriate type of call, assessment and required documentation). If the competency documentation does not support attainment at the proficiency level, the competency is not validated, and the student must resubmit the competency using the feedback provided by the Practicum Coordinator.

The Practicum Coordinator conducts a final audit of all competencies and evaluation requirements to ensure the student has met the required competencies. The student must receive confirmation from the program that they have successfully completed all requirements prior to receiving credit for EM1900.

Students who are missing any of the components may be required to complete additional placement hours.

Students who have completed all their placement hours but have not submitted all evaluation requirements will be given a maximum of two weeks to complete all documentation. Refer to the student placement handbook for more information.

Type of Assessment	Description of Assessment	Value
Student Attendance	Student Attendance Forms	Complete
Clinical Competencies	Clinical Competencies	Proficient
Competency Intervention Form	Competency Intervention Form (if required)	Complete
Preceptor Placement Evaluation	Preceptor Evaluation of Placement	Complete
Student Placement Evaluation	Student Evaluation of Placement	Complete
Placement Goals	Placement Goals	Complete
TOTAL		Pass

GRADING CRITERIA:

Grading Chart for courses with Pass/Fail Grading:

Alpha Grade	4-Point Equivalence	Percentage Conversion (unless otherwise specified in the Course Outline)	Descriptor
P	N/A	Student meets all criteria listed in course outline and syllabus	Pass
F	N/A	Student does not meet all criteria listed in course outline and syllabus	Fail

COURSE SCHEDULE/TENTATIVE TIMELINE:

As provided by the Practicum Coordinator – 12-hour shift model - days, nights, weekends, and holidays

STUDENT RESPONSIBILITIES:

The student is responsible for abiding by all the information provided within their placement handbook and placement orientation. Students are responsible for all costs associated with their placement (travel, accommodation, meals, etc.)

When representing Northwestern Polytechnic, the student will maintain the highest level of professionalism in dealing with the ambulance staff, hospital staff, patients, the public and external agencies.

Situations that will not be tolerated and may lead to withdrawal from the placement include but are not limited to:

- Unprofessionalism
 - Unauthorized Absenteeism
 - Tardiness
 - Failure to adhere to dress code/uniform guideline.
 - Improper or incomplete documentation
 - Insubordination
 - Academic and/or non-academic misconduct as stipulated in NWP Student Rights and Responsibilities Policy.
1. The student's level of professionalism will be based on the ACP Code of Ethics and Standards of Practice.
 2. Students will ensure that all Student Assessment Evaluations are completed accurately and on time.
 3. The student is responsible for all competency management and must submit all competencies for evaluation from each tour/shift cycle prior to the start of the next tour/shift cycle.
 4. The student will contact the Practicum coordinator/Instructor by email once per tour/shift cycle, as well as any additional communication requirements as requested by your Practicum coordinator/Instructor and be prepared to answer questions regarding the placement.
 5. The student must immediately notify the Practicum coordinator/Instructor of any placement issues or irregularities, including scheduling or absenteeism.
 6. Students will submit incident reports/WCB forms per NWP Health and Safety policy/procedure.
 7. The student will ensure all placement documentation is complete and submitted on time.
 8. At the end of the placement, the student will ensure the accurate completion of all the student assessment evaluation forms.
 9. Northwestern Polytechnic may be required to inform Alberta College of Paramedics (ACoP) of serious incidents (negligence, unprofessionalism) with any students who is a registered Practitioner with ACoP.
 10. Failure to comply with any of the above requirements may lead to withdrawal from the placement.

STATEMENT ON ACADEMIC and NON-ACADEMIC MISCONDUCT:

Misconduct will not be tolerated. For a more precise definition of academic and non-academic misconduct and its consequences, refer to the Student Rights and Responsibilities policy available at <https://www.nwpolytech.ca/about/administration/policies/index.html>.

**Note: all Academic and Administrative policies are available on the same page.

Additional Information:

Northwestern Polytechnic provides various academic support services to support your journey to success. Please be aware that personal counseling, peer tutoring, learning library services, Elders and mentors, and disability services are provided at your campus. Please inquire about contact details or locations at the Information desk.

Placement Topics

- Professionalism
- Principles of workplace safety
- Cultural safety
- Applying the Code of Ethics and Standards of Practice as a PCP
- Role of the preceptor
- Integrating history, assessment, clinical presentation, and diagnostic findings into treatment
- Providing care in collaboration with preceptor and within own scope of practice
- Accurate documentation and reporting in the clinical setting
- The interdisciplinary team, roles, responsibilities and working collaboratively
- Attainment of "C" competencies at the level of proficiency
- Self-reflective practice
- Accepting constructive feedback to improve practice
