

**Emergency Services Department
COURSE OUTLINE – Winter 2025**

EM2020 (xx): Paramedic Foundations II– 6 (3-0-9.5) 188 Hours for 15 Weeks

Northwestern Polytechnic acknowledges that our campuses are located on Treaty 8 territory, the ancestral and present-day home to many diverse First Nations, Metis, and Inuit people. We are grateful to work, live and learn on the traditional territory of Duncan's First Nation, Horse Lake First Nation and Sturgeon Lake Cree Nation, who are the original caretakers of this land.

We acknowledge the history of this land and we are thankful for the opportunity to walk together in friendship, where we will encourage and promote positive change for present and future generations.

INSTRUCTOR: Luke Umble **PHONE:** 780-539-2964
OFFICE: HEC 327 **E-MAIL:** lumble@nwpolytech.ca
OFFICE HOURS: M – F 0800-1600 by appointment only

CALENDAR DESCRIPTION: The student will apply new theory and incorporate practical skills, history, assessment, clinical presentation, and diagnostic findings of the ill or injured patient to determine a provisional diagnosis utilizing differential diagnoses and develop an appropriate treatment plan. Students will integrate all knowledge and skills to manage calls for the delivery of safe patient care and promote optimal outcomes. Integration of all these components is critical to address the multiple medical and traumatic conditions encountered in the field.

The student will demonstrate proficiency in the application of all competencies in a Skills, Scenario, and Simulation environment.

PREREQUISITE(S): A GRADE OF B- (70 - 72) IN EM1020

COREQUISITE(S): EM1600, EM2000, EM2030, EM2200, EM2500

REQUIRED TEXT/RESOURCE MATERIALS:

The resources listed in this section are required.

CompTracker™ <http://www.studentlogbook.com/>

Student must have an iPad or Android Tablet in order to use the Student Log Book software.

SUPPLEMENTAL LEARNING RESOURCES

Students are responsible for all fees associated with ProctorU, a live proctoring service for online exams. Fees are paid when you schedule your exams through ProctorU.

Pricing per exam is as follows:

60 minutes or less - \$16 USD

61-120 minutes - \$25 USD

121 - 180 minutes - \$31 USD

Instructor handouts and case studies, articles, journal references, and websites identified by Instructor.

Students are encouraged to utilize research and other resources to augment their learning and share resources with classmates by posting in the on-line discussions.

DELIVERY MODE(S):

1. Online delivery of content
2. Pre-class and assigned readings.
3. Class discussions
4. Group exercises/Laboratories
5. Online activities
6. Classroom case studies

LEARNING OUTCOMES:

1. Integrate knowledge from foundational courses such as pathophysiology, physical assessment, pharmacology to the role of the PCP.
2. Apply universal precautions to all procedures.
3. Apply principles of safety to all aspects of patient care.
4. Discuss the pharmacodynamics and pharmacokinetics for drugs that fall within the PCP scope of practice.
5. Apply the principles of safe medication administration.
6. Integrate didactic knowledge, skills, patient history, assessment, clinical presentation, and diagnostics to formulate a provisional diagnosis and appropriate treatment plan.
7. Perform all PCP skills at the level of proficiency in a simulated environment.
8. Demonstrate effective written, verbal, non-verbal and therapeutic communications skills.
9. Document accurate, complete, and relevant information.
10. Demonstrate beginning critical thinking skills, diagnostic reasoning and clinical decision-making skills at the level expected of a PCP.
11. Demonstrate ability to manage a call.
12. Define and apply defensive driving techniques, and the responsibilities of the professional driver.

13. Work collaboratively with instructors and other students to build effective teamwork skills.
14. Apply the Alberta College of Paramedics Code of Ethics and Standards of Practice to the role of the PCP.
15. Act as a role model for the profession and ambassador for NWP, while integrating the Code of Ethics and Standards of Practice into personal practice.

TRANSFERABILITY:

Please consult the Alberta Transfer Guide for more information. You may check to ensure the transferability of this course at the Alberta Transfer Guide main page

<http://www.transferalberta.alberta.ca>.

**** Grade of D or D+ may not be acceptable for transfer to other post-secondary institutions. Students are cautioned that it is their responsibility to contact the receiving institutions to ensure transferability.**

EVALUATIONS:

Type of Assessment	Description of Assessment	Value
Quiz	3 Quizzes (5% each)	15%
Exam	Midterm written exam & scenario (average combined grade)	25%
Simulation Exam	Final Medical Scenario	15%
Simulation Exam	Final Trauma Scenario	15%
Exam	Final Written Exam	30%
ITLS	Completion (74% written & Competent rating on scenario)	Pass
Professional Driver Improvement Course (PDIC)	Complete online modules and Written exam (80% on written)	Pass
ECG Interpretation	4 Lead/12 Lead Interpretation quiz	Proficient
Medication Math	Medication Math Comprehension quiz	Proficient
Simulation & Lab	Competency Evaluation	Proficient
TOTAL		100%

Simulation and Lab:

As per the National Occupational Competency Profile For Paramedics - see Onsite week schedule

Quizzes:

Quiz #1 Jan 26, 2025; Quiz #2 Feb 16, 2025; Quiz #3 Mar 23, 2025

4 Lead/12 Lead Interpretation & Medication Math Comprehension - see Onsite week schedule

Value added courses:

International Trauma Life Support - see Onsite week schedule

Professional Driver Improvement Course (PDIC) – April 6, 2025 (online modules and quiz completed)

Midterm Written:

March 4, 2025; Time 0900

Midterm Scenario:

See Onsite week schedule

Final Trauma and Medical Simulation Exam:

See Onsite week schedule

Final Written Exam:

April 15, 2025; Time 0900

GRADING CRITERIA:

Please note that most universities will not accept your course for transfer credit **IF** your grade is **less than C-**. A minimum of a B- must be obtained to successfully pass EM2020.

Grading Chart for courses with Alpha Grading:

Alpha Grade	4-point Equivalent	Percentage Guidelines	Alpha Grade	4-point Equivalent	Percentage Guidelines
A+	4.0	95-100	C+	2.3	67-69
A	4.0	85-94	C	2.0	63-66
A-	3.7	80-84	C-	1.7	60-62
B+	3.3	77-79	D+	1.3	55-59
B	3.0	73-76	D	1.0	50-54
B-	2.7	70-72	F	0.0	00-49

NOTE: A GRADE OF B- (70 - 72) IN EM2020 PARAMEDIC FOUNDATIONS 2 IS REQUIRED AS A PREREQUISITE FOR EM1800 AMBULANCE PLACEMENT AND EM1900 CLINICAL PLACEMENT

ADDITIONAL INFORMATION REGARDING STUDENT ASSESSMENT

NOTE: To receive credit for this course, students must complete all course requirements as listed under student assessments.

Onsite Lab Participation

Attendance at all onsite labs for instruction and assessment of practical skills is mandatory for successful completion of this course.

Certificate Courses

Theory and practical portions of one or more certificate courses may be provided to students during the mandatory onsite lab weeks as part of this course. Students must complete all portions as outlined above under student assessments to pass this course.

COURSE SCHEDULE/TENTATIVE TIMELINE:

Onsite week attendance - as per onsite week schedule

Week	Topic/Activity
1	Adverse Environment Emergencies HEENT Emergencies
2	Palliative Patient Behavioral Emergencies
3	Neurological Emergencies
4	Integumentary Emergencies Immunologic Emergencies
5	Cardiovascular Emergencies
6	Respiratory Emergencies
7	Winter Break

8	Renal and Urologic Emergencies Gastrointestinal Emergencies
9	Musculoskeletal Emergencies Trauma Emergencies
10	Endocrine Emergencies
11	Toxicological Aeromedical
12	International Trauma Life Support – Basic
13	International Trauma Life Support – Basic
14	Defensive Driving
15	Final Exams

*Instructor reserves the right to change due dates and weeks of lesson plans, assignments, and exams as necessary to comply with yearly calendar changes. Each year, the instructor will inform the students with any schedule changes.

GENERAL COURSE EXPECTATIONS:

Participation is essential for success in this class, and if a student misses a class/lab it is the student's responsibility to obtain ANYTHING missed during class/lab. The student will be assigned a mark of zero for those assignments, exams, quizzes, labs, etc. missed. IF the student contacts the instructor PRIOR to missing any of the above forementioned, and IF the student has an acceptable excuse (the validity of the excuse is at the discretion of the instructor and will require documentation i.e., doctor's note), the student may be excused without being deducted any marks. Missed onsite lab days may come at an additional expense to students regardless of the circumstances associated with not attending.

STUDENT RESPONSIBILITIES:

Enrolment at NWP assumes that the student will become a responsible citizen of the Institute. As such, each student will display a positive work ethic, take pride in, and assist in the maintenance and preservation of Institute property, and assume responsibility for their education by researching academic requirements and policies; demonstrating courtesy and respect toward others; and respecting instructor expectations concerning attendance, assignments, deadlines, and appointments.

NWP Policies:

It is your responsibility to be familiar with the information contained in this Course Outline and the Paramedic student handbook and to clarify any areas of concern to the instructor. It is also your responsibility to be familiar with NWP Policies.

Student attendance:

Class attendance is useful for two reasons. First, class attendance maximizes a students' learning experience. Second, attending class is a good way to keep informed of matters relating to the administration of the course (e.g., the timing of assignments and exams). Ultimately, you are responsible for your own learning and performance in this course.

Pre-reading

Ensure that you do the pre-reading early, so that you have time to think about what you have read before the exam and before the class if you wish.

Preparing questions

Make a note of anything you are not clear about and prepare a question to ask early in the class to clarify your understanding. This will demonstrate your interest in the topic and indicate to the instructor that you have done the required reading.

Preparing responses

When you read, try to engage with the ideas critically and actively. Make a note of any ideas about which you have strong opinions, positive or negative. Think about how you would refer to these ideas during the class or express your views about them. What language would you use?

Note-taking during discussions and Class time.

Classes can be a very useful source of ideas on a topic, not only from the instructor, but also from other participants. Make a note of any ideas which may be useful to you in writing assignments or broadening your reading.

In most small classes there is an expectation that you will contribute actively to the discussion, and not simply be a 'silent participant'. In some courses marks are given for active participation in class.

Learn people's names.

Make a conscious effort to learn -and use -the names of all the other people in the class. This includes the students at the alternate site while using video conferencing.

Using visualization

Every class you attend is also a preparation for the next class. At the end of a class, play it back in your mind, not just for the content and ideas, but remembering responses, and the sort of language used. Then, before the next class, think about the questions and comments you have thought of, and visualize in your mind how the discussion will go. Most importantly, imagine yourself taking part: using people's names, getting their attention, asking questions, and commenting on what you've read and on what other people are saying. The more positively you do this, the more it will help you in class.

Exams, Quizzes and Assignments

The instructor of the course will provide the date of all exams, quizzes, and assignments for the course during the first week of instruction. This course may require students to write remotely proctored examination(s), either online or within an approved location with a proctor present. Review the Paramedic Student's Handbook for specific information regarding proctored assessment(s).

Onsite Weeks

Course content delivery, quizzes, exams, and assignments may occur during onsite weeks. It is the student's responsibility to attend the onsite week and meet academic timelines/requirements.

STATEMENT ON ACADEMIC and NON-ACADEMIC MISCONDUCT:

Misconduct will not be tolerated. For a more precise definition of academic and non-academic misconduct and its consequences, refer to the Student Rights and Responsibilities policy available at <https://www.nwpolytech.ca/about/administration/policies/index.html>.

**Note: all Academic and Administrative policies are available on the same page.

USING PROCTORU:

This course uses ProctorU Live for online exams. To utilize this service, you are required to complete the following steps:

- Create a ProctorU account by clicking the ProctorU link in the course.
- Download and install the Guardian Web Browser, Google Chrome, and the ProctorU extension.
- Schedule each exam at least 3 days (72 hours) in advance. If you miss this deadline, you cannot take the exam.
- Pay for the proctoring service. The fees are exclusively your responsibility and in no event shall be the responsibility of Northwestern Polytechnic.

For more detailed instructions [click here](#), and for video instructions [click here](#).

Before each exam, you must complete a room scan with your web camera, during which you will show your surroundings to a live proctor.

The invigilator will ask to view (but not collect or store) your student identification to verify your identity and will remotely access your computer to unlock the exam. When monitoring your actions via video streaming, the invigilator may possibly record your actions if they suspect academic integrity behavioural issues. You will be verbally notified if/when recording begins.

The collection of and access to the personal information listed above is permitted under subsection 33(c) of the *Freedom of Information and Protection of Privacy Act*, RSA 2000, c F-25, which states, “No personal information may be collected by or for a public body unless that information relates directly to and is necessary for an operating program or activity of the public body.” In addition, subsection 39(4) states, “A public body may use personal information only to the extent necessary to enable the public body to carry out its purpose in a reasonable manner.”

Records Retention: Any video records of you created by ProctorU will be kept by ProctorU for a maximum of 7 days in order to make a decision about any possible academic integrity infraction, after which time it shall be permanently deleted. All other personal information collected and stored by ProctorU within your profile account will be permanently deleted if the account has not been used after one year.

Consent to Store Personal Information Outside Canada

ProctorU is an American company. An agreement is in place between ProctorU and Northwestern Polytechnic by which ProctorU will take reasonable steps to protect your personal information from unauthorized access and disclosure. Information about how ProctorU protects your privacy can be found in their [Privacy Policy](#).

By using the ProctorU service via Northwestern Polytechnic, you consent to the storage of and access to your personal information outside of Canada.

This consent is in effect from the day you register with ProctorU and expires one year after completion of your exam.

Additional privacy and liability information regarding the use of ProctorU is available on the NWP website.

Additional Information:

Northwestern Polytechnic provides various academic support services to support your journey to success. Please be aware that personal counseling, peer tutoring, learning library services, Elders and mentors, and disability services are provided at your campus. Please inquire about contact details or locations at the Information desk.

Course Topics

- Palliative Patient
- Behavioral Emergencies
- Adverse Environment
- HEENT Emergencies
- Neurological Emergencies
- Cardiovascular Emergencies
- Cardiovascular Emergencies
- Respiratory Emergencies
- Immunologic Emergencies
- Integumentary, Musculoskeletal, and Trauma
- Renal and Urologic Emergencies
- Gastrointestinal Emergencies
- Endocrine Emergencies
- Toxicological
- Aeromedical
- International Trauma Life Support – Basic
- Professional Driving Improvement Course (PDIC)
