

Emergency Services Department COURSE OUTLINE – Winter 2026

EM2030 (HY): Paramedics in Special Populations – 3 (3-0-2) 75 Hours for 15 Weeks

Northwestern Polytechnic acknowledges that our campuses are located on Treaty 8 territory, the ancestral and present-day home to many diverse First Nations, Metis, and Inuit people. We are grateful to work, live and learn on the traditional territory of Duncan's First Nation, Horse Lake First Nation and Sturgeon Lake Cree Nation, who are the original caretakers of this land.

We acknowledge the history of this land and we are thankful for the opportunity to walk together in friendship, where we will encourage and promote positive change for present and future generations.

INSTRUCTOR:	Taegan Pomeroy	PHONE:	780-539-2874
OFFICE:	HEC 331	E-MAIL:	tpomeroy@nwplytech.ca
OFFICE HOURS:	M-F 0800-1600 by appointment only		

CALENDAR DESCRIPTION: This course provides students with knowledge and skills required to provide care to special populations within the context of PCP practice. Obstetrics, neonates, pediatrics and geriatrics are the major focus of this course with competency attainment at the level of proficiency during the mandatory on-site labs.

PREREQUISITE(S): A GRADE OF B- (70 - 72) IN EM1020

COREQUISITE(S): EM1600, EM2000, EM2020, EM2200, EM2500

REQUIRED TEXT/RESOURCE MATERIALS:

The resources listed in this section are required.

Alberta College of Paramedics (2016). Code of Ethics and Standards of Practice. Retrieved from: [CODE OF ETHICS \(abparamedics.com\)](https://www.abparamedics.com/code-of-ethics) and [Standards of Practice \(abparamedics.com\)](https://www.abparamedics.com/standards-of-practice)

NRP Exam - Students are responsible for purchase of online exam - [Create Account – CPS Member Centre](#) - DO NOT PURCHASE EXAM UNTIL 30 DAYS PRIOR TO NRP COURSE START DATE (February 11 2026) Purchase anytime AFTER January 11
CompTracker™ <http://www.studentlogbook.com/>

Student must have an iPad or Android Tablet in order to use the Student Log Book software.

Students are responsible for all fees associated with ProctorU, a live proctoring service for online exams. Fees are paid when you schedule your exams through ProctorU.

Pricing per exam is as follows:

60 minutes or less - \$16 USD

61-120 minutes - \$25 USD

121 - 180 minutes - \$31 USD

SUPPLEMENTAL LEARNING RESOURCES

The resources listed in this section are optional but provide additional information to support learner success.

Instructor handouts and case studies, articles, journal references, and websites identified by Instructor. Students are encouraged to utilize research and other resources to augment their learning and share resources with classmates by posting in the on-line discussions.

DELIVERY MODE(S):

1. Online delivery of content
2. Pre-class and assigned readings.
3. Class discussions
4. Group exercises/Laboratories
5. Online activities
6. Classroom case studies

LEARNING OUTCOMES:

1. Integrate knowledge from foundational courses such as anatomy, physiology and communication during the provision of care to special populations.
2. Apply universal precautions to all procedures.
3. Apply principles of safety to all aspects of patient care.
4. Adapt communication techniques, assessments and interventions to address the special needs of obstetrical patients.
5. Adapt communication techniques, assessments and interventions to address the special needs of neonate patients.
6. Adapt communication techniques, assessments and interventions to address the special needs of pediatric patients.
7. Adapt communication techniques, assessments and interventions to address the special needs of geriatric patients.
8. Demonstrate all competencies at the level of proficiency.
9. Demonstrate effective written, verbal, non-verbal and therapeutic communications skills.
10. Document accurate, complete and relevant information.
11. Act as a role model for the profession and ambassador for NWP, while integrating the Code of Ethics and Standards of Practice into practice.

TRANSFERABILITY:

Please consult the Alberta Transfer Guide for more information. You may check to ensure the transferability of this course at the Alberta Transfer Guide main page

<http://www.transferralberta.alberta.ca>.

**** Grade of D or D+ may not be acceptable for transfer to other post-secondary institutions. Students are cautioned that it is their responsibility to contact the receiving institutions to ensure transferability.**

EVALUATIONS:

This course requires the completion of all assigned learning activities and assessments. This includes all graded components, as well as any mandatory ungraded components designed to support learning. Students who fail to complete any required element of the course will receive a final grade of 'F'.

Type of Assessment	Description of Assessment	Value
Assignments	5 Patient Care Report Assignments, worth 6% each	30%
Quizzes	3 quizzes each worth 10%	30%
Online Participation	Online Participation	5%
Exam	Final Comprehensive Exam (covering all modules)	35%
Simulation	Competency Evaluation	Proficient
PEARS	Completion	Pass
NRP	Completion	Pass
TOTAL		100%

GRADING CRITERIA:

Please note that most universities will not accept your course for transfer credit **IF** your grade is **less than C-**. A minimum of a B- must be obtained to successfully pass EM2030.

Grading Chart for courses with Alpha Grading:

Alpha Grade	4-point Equivalent	Percentage Guidelines		Alpha Grade	4-point Equivalent	Percentage Guidelines
A+	4.0	95-100		C+	2.3	67-69
A	4.0	85-94		C	2.0	63-66
A-	3.7	80-84		C-	1.7	60-62
B+	3.3	77-79		D+	1.3	55-59
B	3.0	73-76		D	1.0	50-54
B-	2.7	70-72		F	0.0	00-49

NOTE: A GRADE OF B- (70 - 72) IN EM2030 PROFESSIONAL PARAMEDICS II IS REQUIRED AS A PREREQUISITE FOR EM1800 AMBULANCE PLACEMENT AND EM1900 CLINICAL PLACEMENT

ADDITIONAL INFORMATION REGARDING STUDENT ASSESSMENT

NOTE: To receive credit for this course, students must complete all course requirements as listed under student assessments.

Onsite Lab Participation

Attendance at all onsite labs for instruction and assessment of practical skills is mandatory for successful completion of this course.

Online Participation

Students are expected to adhere to the tentative course schedule outlined below. This timeline serves as a guide to inform students of their weekly requirements and to ensure they remain on track for success during onsite sessions and within the curriculum. It is the student's responsibility to stay updated with the provided schedule and actively engage in the learning process to maximize their learning outcomes.

Certificate Courses

Theory and practical portions of one or more certificate courses may be provided to students during the mandatory onsite lab weeks as part of this course. Students must complete all portions as outlined above under student assessments to pass this course.

COURSE SCHEDULE/TENTATIVE TIMELINE:

Onsite week attendance - as per onsite week schedule

EM2030 Tentative Schedule	
Week	Topic/Activity
1 January 6-11, 2026	Module 1 Lesson 1 Gynecological Emergencies Live Lecture January 6th <i>Classes start January 6</i> <i>*NRP Online Component may be purchased on or after January 11, 2026*</i>
2 January 12-18, 2026	Module 1 Lesson 2 Obstetrics Live Lecture January 12 Live Lecture January 16 <i>*January 15 is the last day to add or withdraw from course with no academic or financial penalty</i>
3 January 19-25, 2026	Module 1 Lesson 3 Labor and Delivery PCP Onsite Week 6 January 19-23 (Obstetrics scenario competency evaluation)
4 January 26-February 1, 2026	Module 2 Lesson 1 Neonatal Emergencies Live Lecture January 26 Module 1 Quiz due January 30
5 February 2-8, 2026	Module 2 Lesson 2 Neonatal Resuscitation Program Part 1 Module 2 Lesson 2 Neonatal Resuscitation Program Part 2 Live Lecture February 2 Live Lecture February 6 PCR Assignment #1 Obstetrics due February 3 NRP Sections 1-11 Components & Online Exam must be completed by February 6 2026
6 February 9-15, 2026	M2L2 Neonatal Resuscitation Program PCP Onsite Week 7 February 9-13 2026 (Neonatal scenario competency evaluation and Neonatal Resuscitation Program)

7 February 16-22	<i>*Winter Break February 16-22 No Classes*</i>
8 February 23- March 1, 2026	Module 3 Lesson 1 Pediatrics Live Lecture February 23 & 27 PCR Assignment #2 Neonatal February 27
9 March 2-8, 2026	Module 3 Lesson 2 Pediatric Emergency Assessment, Recognition and Stabilization (PEARS) PCP Onsite Week 8 March 2-6 (PEARS course)
10 March 9- 15, 2026	Module 4 Lesson 1 Geriatrics Live Lecture March 9 & 12 Module 3 Pediatrics Quiz due March 13
11 March 16- 22, 2026	Module 4 Lesson 2 Geriatrics PCP Onsite Week 9 March 16-20 2026 (Pediatric and Geriatric scenario competency evaluation)
12 March 23- 29, 2026	Review PCR Assignment #3 Pediatrics – PEARS due March 25 Module 4 Geriatrics Quiz due March 27 <i>*March 31st is the final date to withdraw from the course and receive a mark of 'W'.</i>
13 March 30- April 5, 2026	Review PCR Assignments #4 & 5 Pediatrics, Geriatrics due March 31 <i>Last day of classes April 13.</i>
14 April 6- 12, 2026	Review PCP Onsite Week 10 April 6-10 2026) <i>Last day of classes April 11.</i>
15 April 13- 19, 2026	Final Comprehensive Examination April 22, 2026 0900 hours – 120 minutes

*Instructor reserves the right to change due dates and weeks of lesson plans, assignments, and exams as necessary to comply with yearly calendar changes. Each year, the instructor will inform the students with any schedule changes.

GENERAL COURSE EXPECTATIONS:

Participation is essential for success in this class, and if a student misses a class/lab it is the student's responsibility to obtain ANYTHING missed during class/lab. The student will be assigned a mark of zero for those assignments, exams, quizzes, labs, etc. missed. IF the student contacts the instructor PRIOR to missing any of the above forementioned, and IF the student has an acceptable excuse (the validity of the excuse is at the discretion of the instructor and will require documentation i.e., doctor's note), the student may be excused without being deducted any marks. Missed onsite lab days may come at an additional expense to students regardless of the circumstances associated with not attending.

STUDENT RESPONSIBILITIES:

Enrolment at NWP assumes that the student will become a responsible citizen of the Institute. As such, each student will display a positive work ethic, take pride in, and assist in the maintenance and preservation of Institute property, and assume responsibility for their education by researching academic requirements and policies; demonstrating courtesy and respect toward others; and respecting instructor expectations concerning attendance, assignments, deadlines, and appointments.

NWP Policies:

It is your responsibility to be familiar with the information contained in this Course Outline and the Paramedic student handbook and to clarify any areas of concern to the instructor. It is also your responsibility to be familiar with NWP Policies.

Student attendance:

Class attendance is useful for two reasons. First, class attendance maximizes a students' learning experience. Second, attending class is a good way to keep informed of matters relating to the administration of the course (e.g., the timing of assignments and exams). Ultimately, you are responsible for your own learning and performance in this course.

Pre-reading

Ensure that you do the pre-reading early, so that you have time to think about what you have read before the exam and before the class if you wish.

Preparing questions

Make a note of anything you are not clear about and prepare a question to ask early in the class to clarify your understanding. This will demonstrate your interest in the topic and indicate to the instructor that you have done the required reading.

Preparing responses

When you read, try to engage with the ideas critically and actively. Make a note of any ideas about which you have strong opinions, positive or negative. Think about how you would refer to these ideas during the class or express your views about them. What language would you use?

Note-taking during discussions and Class time.

Classes can be a very useful source of ideas on a topic, not only from the instructor, but also from other participants. Make a note of any ideas which may be useful to you in writing assignments or broadening your reading.

In most small classes there is an expectation that you will contribute actively to the discussion, and not simply be a 'silent participant'. In some courses marks are given for active participation in class.

Learn people's names.

Make a conscious effort to learn -and use -the names of all the other people in the class. This includes the students at the alternate site while using video conferencing.

Using visualization

Every class you attend is also a preparation for the next class. At the end of a class, play it back in your mind, not just for the content and ideas, but remembering responses, and the sort of language used. Then, before the next class, think about the questions and comments you have thought of, and visualize in your mind how the discussion will go. Most importantly, imagine yourself taking part: using people's names, getting their attention, asking questions, and commenting on what you've read and on what other people are saying. The more positively you do this, the more it will help you in class.

Exams, Quizzes and Assignments

The instructor of the course will provide the date of all exams, quizzes, and assignments for the course during the first week of instruction. This course may require students to write remotely proctored examination(s), either online or within an approved location with a proctor present. Review the Paramedic Student's Handbook for specific information regarding proctored assessment(s).

Onsite Weeks

Course content delivery, quizzes, exams, and assignments may occur during onsite weeks. It is the student's responsibility to attend the onsite week and meet academic timelines/requirements.

STATEMENT ON ACADEMIC and NON-ACADEMIC MISCONDUCT:

Misconduct will not be tolerated. For a more precise definition of academic and non-academic misconduct and its consequences, refer to the Student Rights and Responsibilities policy available at <https://www.nwpolytech.ca/about/administration/policies/index.html>.

**Note: all Academic and Administrative policies are available on the same page.

Additional Information:

Northwestern Polytechnic provides various academic support services to support your journey to success. Please be aware that personal counseling, peer tutoring, learning library services, Elders and mentors, and disability services are provided at your campus. Please inquire about contact details or locations at the Information desk.

Course Topics:

1. The Obstetrical Patient
2. The Neonatal Patient
3. The Pediatric Patient
4. The Geriatric Patient
