A. COURSE DESCRIPTION

This course is intended to provide an overview of the areas of contract, tort and business law; those fields most likely to be encountered in commercial practice.

Reading assignments are contained in the outline attached. Class discussion will focus around the questions, problems and cases found at the end of each chapter. All references are to The Law and Business Administration in Canada (6th edition), Smyth, Soberman and Easson. Students are expected and required to attend each class having read the assigned chapters and prepared answers for the work, which will be assigned on a weekly basis.
