Prerequisite(s)/corequisite(s):

BA 1120 and BA 1150.

Required Text/Resource Materials:

Romney, M. and Steinbart, P., **Accounting Information Systems**, Eleventh Edition.
Pearson Prentice-Hall, Toronto, Ontario, 2009.

The text will be used extensively.

Description:

How to develop computer-based accounting information systems and how such information systems support decision-making at all levels of management are examined in this course.

Credit/Contact Hours:

This is a 3 credit course with 3 lecture hours per week.

Delivery Modes:

For each topic listed, there will be a classroom lecture/discussion and a demonstration of related accounting procedures. I will assign relevant textbook readings and problems and test your knowledge, understanding and application of the material.

Regular classroom attendance is expected. Please do not be late. You should study each assigned reading both before and after it is discussed in class and apply your understanding by completing the required homework problems.

Adopting and adhering to effective learning habits in this course will likely take up a great deal of time so plan your schedule accordingly. Do not fall behind in the assigned readings and problems because it will be difficult to catch up.

Objectives:

This course is designed to help students understand the role of accounting information systems (AIS) in performing the accounting function in contemporary business organizations. Upon completion of this course the student will be able to:

- Explain the role played by the AIS in a company's value chain and discuss ways that the AIS can add value to a business.
- Describe the basic internal control objectives of an AIS and explain how they are accomplished.
- Describe the threats to an AIS and discuss why these threats are growing.
- Identify the objectives of an information system (IS) audit and describe the four-step approach necessary for meeting these objectives.
- Read and explain an integrated enterprise-wide REA data model.
- Describe and document the basic business activities and related data processing operations performed in the revenue cycle, expenditure cycle and human resources management (HRM)/payroll cycle.

Transferability:

C.G.A., C.M.A., U of L, A.U., U of C, Thompson Rivers' University, Royal Roads University, Lakeland College and Okanagan College. Students can also refer to the Alberta Transfer Guide at <http://www.acat.gov.ab.ca> for a list of institutions. Students are however *strongly advised* to check with the receiving institution for more details and to ensure transferability.
