## EVALUATIONS:

Assignments: 80%

In Class Experiences: 20%

This course is designed as an experiential “lab” course. Students must be physically present and actively participating during class time in order to receive the 20% in class experience mark.

All assignments will be completed during you CD1045 weekly practicum visits or “in the field” opportunities.

In order to successfully complete CD1050, students must also successfully complete CD1045 (Practicum 1) as your assignments are directly tied together. If a student is not registered in CD1045, it is the responsibility of that student to meet with the instructor to make alternate arrangements to complete assignments at an approved location.

Special note for Video Conference students: Due to the nature of this course, VC students will be given alternate “hands on experiences” to complete during any class time that “hands on labs” are being completed by on campus students.
