COURSE OBJECTIVES:**Classroom Discussions**

The primary objective of the **Classroom Seminar** in the course ED2510/2530 is to assist pre-service teachers with:

1. assessing their motivation for entering the teaching profession,
2. thinking about how students learn and what the teacher's role is in assisting with learning,
3. thinking about classrooms as places of learning, not places of teaching,
4. creating conditions whereby students are able to interpret instances of learning and teaching in ways that assist with the beginning phases of learning to teach,
5. developing a critical awareness of issues that pertain to teaching, including those of equity, cultural awareness and student ability, within the historical and sociological legacy of the province and country,
6. creating a beginning understanding of theory and research, philosophy, and pedagogy related to learning and teaching,
7. becoming initiated into the duties and responsibilities and work of teachers, and
8. creating a beginning understanding of the interdependency of schools and community, and the possibilities of equalizing opportunities through educational practices and reforms.

LEARNING OUTCOMES:

- Explain the difference between classrooms as places for “teaching” versus places of “learning”
- Discuss multiple instructional strategies to support student intellectual, social, and personal development.
- Describe how to create a learning environment that encourages positive social interaction, active engagement in learning, and self- motivation.
- Compare and contrast the roles of the Alberta Teachers’ Association and the Alberta Ministry of Education.
- Identify and describe how the historical and sociological legacy of education impacts current student learning.
- For a given instructional situation, give examples of formal and informal assessment strategies to evaluate and ensure the continuous intellectual, social, and physical development of the learner.
- Discuss the importance of reflective practice in relation to professional growth in teaching.
