The primary objective of the **Classroom Seminar** in the course ED2510/2530 is to assist pre-service teachers with:

1. Assessing their motivation for entering the teaching profession,
2. Thinking about how students learn and what the teacher's role is in assisting with learning,
3. Thinking about classrooms as places of learning, not places of teaching,
4. Creating conditions whereby students are able to interpret instances of learning and teaching in ways that assist with the beginning phases of learning to teach,
5. Developing a critical awareness of issues that pertain to teaching, including those of equity, cultural awareness and student ability,
6. Creating a beginning understanding of theory and research related to learning and teaching,
7. Becoming initiated into the duties and responsibilities and work of teachers, and
8. Creating a beginning understanding of the interdependency of schools and community.

Field Experience

The **Field Experience Observation** opportunities consist of two five-week rounds of school visits, one in an elementary school setting and one in a secondary school setting. During each round ED2510 students will spend the equivalent five (5) half days at an assigned school; ED2530 students will spend the equivalent of ten (10) half days at each assigned school.
