Once written, the manifesto should serve as your personal document upon which you will hold yourself accountable.

This assignment is your personal declaration of what you value about nursing as a profession, what you believe about being a student in a professional program and the vision you have for yourself as a student in this professional program.

3) Quizzes

Students will complete weekly quizzes that will assist in understanding the concepts being presented in theory classes. Students will be given preparatory work for each week and the quizzes will reflect the content from that preparatory work.

All quizzes will be added up and an average will be given to make up the total 10%. There is no opportunity to rewrite or reschedule quizzes. A missed quiz will count as a zero on that quiz.

Quizzes are located on the MyClass site under each week for students to access at the beginning of each class. It is important that students are punctual as the quizzes will start promptly at the start of class.

4) Exams #1 and #2

Content that will be covered in the exams includes all preparatory work on MyClass, theory class, seminar class and the clinical learning activity. Exams are cumulative, meaning that

concepts tested in the first exam will be tested in the second exam to ensure students have a good grasp of the information.

5) Seminar Participation

Participation and attendance in all seminars is mandatory and the information in these classes will be tested in the exams. Students are expected to come prepared with an open attitude of inquiry and participate in the activities during class and online/journaling. Because of the nature of the seminars, it is imperative that student attend to build themselves up for success in the rest of the program. Attendance will be taken as well as ensuring that preparatory work and journaling is completed in a timely manner.

Students will also submit at the end of the semester how they have shown active participation with a score out of 10. The nursing instructor will review the student's self-assigned participation grade and may adjust grade to accurately reflect level of seminar participation.
