STUDENT RESPONSIBILITIES:

Students are expected to attend all classes. Stay awake in class. If you miss a class, make arrangements to copy the notes from your class fellows. If you are using older edition of the textbook, you are responsible for matching page numbers, topics, figures, and problems with the editions being used in the class. You are encouraged to ask questions, but do not monopolize the class time. Give others a chance to ask questions as well.

Mid-term Exam: Formula sheet (one sheet of paper 8.5 x 11 inch, both sides), calculator and HB pencils. Calculator: any calculator with no communication features. MID-TERM EXAMINATIONS MISSED FOR ANY REASON WILL NOT BE RESCHEDULED. Students not writing the midterm exam, with a valid excuse (as defined by College policy) will have the midterm weight added to the final exam. This is not automatic, and if you miss the mid-term, you should follow all College guidelines and contact your instructor as soon as possible.

Final Exam: Formula sheet (one sheet of paper 8.5 x 11 inch, both sides), calculator and HB pencil required. Note that since the Final Exam is cumulative you can be tested on any of the material listed below, regardless of whether or not we cover it in-class.

IMPORTANT NOTES:

- YOU MUST PASS THE LABORATORY SECTION (minimum 50 % average) TO PASS THE COURSE.**

All students are expected to come to the laboratory well prepared for the experiment that is to be performed and on time. Pre-lab assignments, if any, must be submitted at the start of each lab period. Students are expected to attend all laboratory periods. Absences due to illness must be substantiated by presenting suitable evidence to the Instructor within five business days of missing the lab. An opportunity to make up a lab will be given only for **excused absences**.

The laboratory experiments are designed to allow a well-prepared student to finish all the work within the allotted time. **IT IS YOUR RESPONSIBILITY TO COMPLETE THE LAB ON TIME.** Formal lab reports should be written using the format provided to you by the instructor. Unless instructed otherwise, the lab reports are due at the end of the lab. **LATE LAB REPORTS WILL NOT BE ACCEPTED.**
- CALCULATOR POLICY:** Any type of calculator without communications features may be used during examinations. Smartphones, Blackberries, Tablets/Laptop computers, etc. are prohibited. Cellular phones must be shut off during exams.
- All assignments, and some quizzes must be submitted online using WileyPlus. Seminars, recitations etc. must be submitted on 8.5 x 11 inch Engineering Paper on the due date during class (if applicable). All work must be neat and legible, done in pencil on **one** side of the paper and stapled. Leave space between problems or separate them with straight line. Box your final answers. In case you do not receive your submitted work back with the rest of the class, please see me right away to resolve the problem. For further information see the example handout. Please be advised that ***late submittals will be awarded zero mark.***
