Canadian Society for Exercise Physiology's Health & Fitness Program

The CSEP-PATH Physical Activity Training for Health Manual

Canadian Society for Exercise Physiology, 2013

DELIVERY MODE(S): The course work includes lectures, class discussions, group work and practical lab hours.

COURSE OBJECTIVES:

1. Provide classroom and lab situations to allow the students the opportunity to develop and practice personal fitness testing and exercise prescription skills, thereby preparing students for the Canadian Society of Exercise Physiology’s Certified Personal Trainer Certification’s written and practical national exams.
2. To introduce students to a variety of physical conditions and the resulting adaptations in exercise program design.
3. To fulfill course requirements of the Certified Personal Trainer designation.

LEARNING OUTCOMES:

1. The student can demonstrate a level of knowledge and practical skills that enable him/her to provide safe, appropriate, individualized, and effective personal fitness testing/training sessions with apparently healthy clients.
2. The student has developed a knowledge base in exercise prescription and its application to specific populations.
3. The student will be prepared for the Canadian Society of Exercise Physiology’s Certified Personal Trainer Certification’s written and practical national exams.
4. The student will have fulfilled the course/workshop requirements of CSEP’s Certified Personal Trainer designation.

TRANSFERABILITY:

Not officially transferable to other institutions at this time.
