They may also involve efforts to resolve conflicts between the professionals' personal moral beliefs and their perceived duties as professionals. Challenges and issues will be explored through consideration of debates within specific fields (such as accounting, medicine, engineering, journalism and law) - often with relevance across professions. ## **Additional Information:**

### **Philosophical Etiquette**

Contrary to popular belief philosophy is not a blood sport. A philosophical discussion should not be thought of as an opportunity to participate in arguments that are meant to crush one's opponent. Rather it is an opportunity, first and foremost, to gain an understanding of philosophical concepts. Second, it should inspire critical analysis of philosophical concepts. And finally, it should facilitate fruitful discussion. I expect all students to show good philosophical etiquette, which is to exhibit mutual respect for each other's ideas and comments and that people not be *purposefully* offensive.

### **Pet Peeves**

Cell phones that ring during class or use of cell phones during class. The sound of binders closing and people packing-up books before I've indicated that the class is over. Trying to talk over people who are discussing their weekend plans during class time. Unstapled assignments. Use of laptops or other electronic devices that disrupts other students.
