

Grande Prairie Regional College
Department of Arts and Education
Philosophy and Health Care
Philosophy 3860 (UT) May 2014

Instructor: Tom Enders, PhD
Office: C303
Phone: 780-539-2996
E-mail: tenders@gprc.ab.ca
Office hours: after class and by appointment

Prerequisite: None. No prior knowledge of medicine, philosophy or ethics is required.

Required texts/resource materials:

Helga Kuhse and Peter Singer, editors. Bioethics: An Anthology, 2nd edition.
Hokoken, New Jersey: Wiley-Blackwell, 2006.

John Thomas and Wilfrid Waluchow, Well and Good. Peterborough, Ontario:
Broadview Press, 1998.

Moodle postings and internet readings as indicated on reading list.

College Calendar Course Description:

This course provides a philosophical examination of concepts and issues central to the knowledge and practice of health care. Topics may include: provision and allocation of health care resources, rights and responsibilities of health care personnel and patients, passive and active euthanasia, abortion, reproductive technology, research and experimentation, disclosure of diagnosis and risks, death and suffering.

Course Description May 2014:

We will examine issues of institutional and public policy, professional ethics, and bioethics. The issues raise questions about who has the right to decide. They also raise questions about the criteria which decision-makers may use in making ethical decisions.

More specifically, after a brief introduction to philosophy and ethical theories, we will ask what health is and who it is for, and take an initial look at features of personhood. Then we will discuss the allocation of scarce medical resources, a challenge which appears in the background and foreground of numerous health care issues. We will proceed to examine the role of the health care professional and selected issues pertaining to autonomy and consent – also frequently reoccurring concerns. We will conclude by looking at end of life and beginning of life issues, as well as

issues involving genetic testing and engineering. These last issues raise numerous questions, including further ones about autonomy, consent, the quality and value of life and death, and the role of the medical profession.

Course objectives:

By the end of this course you should have a good initial understanding of basic philosophical concepts, theories and approaches and be able to use them in thinking carefully about philosophical and ethical issues in health care.

Credit/Contact Hours: This is a three credit course with the equivalent of three hours of instructional time a week for a full term (or 14 three-hour class meetings.)

Delivery mode/course format:

Classroom sessions will be used for presentation and discussion of key concepts and arguments. Increasing attention will be given to discussions of challenging and illustrative cases in later classes. Moral or ethical values, principles and approaches will be applied to the cases.

Course requirements:

First exam..... 30%
First assignment20%
Second assignment20%
Final exam..... 30%

Conversion table:

A+ 90 - 100	B+ 76 - 79	C+ 67 - 69	D+ 55 - 59
A 85 - 89	B 73 - 75	C 64 - 66	D 50 - 54
A- 80 - 84	B- 70 - 72	C- 60 - 63	F 0 - 49

For conversion of letter grades to the four-point scale see the GPRC calendar.

Transferability: UA, AF (UA Camrose), UC, UL, AU

* The grade of D or D+ may not be accepted for transfer to other postsecondary institutions. Students are cautioned that it is their responsibility to contact the receiving institutions to ensure transferability.

Student Responsibilities:

* You are expected to devote time in the classroom to the class itself. Use of cell phones, laptops and other equipment is unacceptable unless approved for class purposes. It is also not acceptable to socialize or do work on other courses during the class.

* You are strongly advised to keep a copy of your own of any work you submit for grading at least until you have your work returned to you.

** Students who miss an excessive number of classes may be denied the opportunity to write the final exam, as stated in the Calendar.

**You are expected to write the final exam when scheduled by the Registrar's Office - with possible exceptions in the case of compelling and urgent circumstances beyond your control. Also note and observe other key dates during the term as provided in the Calendar.

Statement on Plagiarism and Cheating:

* You are required to reference sources fully and properly for written assignments. You are responsible for familiarizing yourself with College Calendar information pertaining to cheating and plagiarism, for which there are various penalties depending on the severity of the offense.

Provisional Schedule

M 5 May: I. Introduction. What is philosophy? Branches of philosophy.
Reading philosophy, etc.

T 6 I. Introduction concluded.

W 7 II. Health, Personal Identity and Personhood over time.

W 7 III. Ethical Theories or Approaches... A concise introduction to basics.

Th 8 III. Ethical Theories continued.

M 12 T 13 IV. Allocation of Scarce Medical Resources. Age. Responsibility.

W 14 FIRST TEST

W 14 V. Professional Ethics: Autonomy. Paternalism. The doctor-patient relationship. Role of nurses. Cultural interaction.

Th 15 V. Concluded.

M 19 May Victoria Day – no class.

T 20 VI. Consent and Autonomy. Informed Consent. Competent Persons. Mental Illness. The incompetent. Children. Religion. The Family

W21 Th 22 VII. End of Life Issues: A. Passive Euthanasia. Assisted-Suicide. Active Euthanasia.

Th 22 VII. B. Severely Disabled Newborns

M 26 T 27 VIII. Abortion

T 27 IX. Prenatal Screening

W 28 X. Genetic Engineering.

Th 29 May: FINAL EXAM
