

DEPARTMENT OF SCIENCE

COURSE OUTLINE – Fall 2023

POF 401 (VA2): 4th Class Power Engineering A1 – 6 (8-0-2) 110 Hours over 11 Weeks

Northwestern Polytechnic acknowledges that our campuses are located on Treaty 8 territory, the ancestral and present-day home to many diverse First Nations, Metis, and Inuit people. We are grateful to work, live and learn on the traditional territory of Duncan's First Nation, Horse Lake First Nation and Sturgeon Lake Cree Nation, who are the original caretakers of this land.

We acknowledge the history of this land and we are thankful for the opportunity to walk together in friendship, where we will encourage and promote positive change for present and future generations.

INSTRUCTOR:	Wells Darling Curran Speager	PHONE:	780-518-1820 587-343-2154
OFFICE:	J206 L215	E-MAIL:	Wdarling@nwpolytech.ca cspeager@nwpolytech.ca
OFFICE HOURS:	As posted		

CALENDAR DESCRIPTION:

The first section will cover the science portion of steam, energy, thermodynamics, legislation and code, safety, and fire protection.

PREREQUISITE(S)/COREQUISITE:

A high school diploma including at least:

- 50% in English 30-1 or English 30-2
- 65% in Mathematics 30-1 or 70% in Mathematics 30-2
- 65% in Chemistry 30 OR Physics 30

OR

- Mature students not meeting the above requirements may request a review of their education and prior work skills by the Power Engineering Team at NWP.

REQUIRED TEXT/RESOURCE MATERIALS:

The following textbook and resource materials are required for the full 4th Class program, including courses POF 401, 402, 406, and 408. All books are from PanGlobal.org

- 4th Class Textbook Set – Part A [Ed. 3.5]
- 4th Class Textbook Set – Part B [Ed. 3.5]
- Preparatory Math Topics for Power Engineering [Ed. 2]
- Academic Supplement [Ed. 2.0]
- 2018 ASME Academic Extract (Vol 1)

The first 4 books are available as a bundle

4th Class – Standard Collection

<https://mypower.panglobal.org/pshop/4th-class/225-4th-class-standard-collection.html>

2018 ASME Academic Extract (Vol 1)

<https://mypower.panglobal.org/pshop/code-extracts-supplement/198-2018-asme-academic-extract-vol-1.html>

NOTE: Older editions of Power Engineering textbooks are not acceptable. The changes between editions are enough to impact the likelihood of passing the ABSA exams.

DELIVERY MODE(S):

Lecture style presentation of material in person at the NWP Grande Prairie campus. Laboratory provides hands-on experience and will be delivered at the Fairview campus.

LEARNING OUTCOMES:

The Standardization of Power Engineers Examination Committee (SOPEEC) has developed a Fourth Class Power Engineer's Syllabus (SOPEEC Syllabus) which has been approved by the Association of Chief Inspectors (ACI) to be used across Canada. A full copy of the current syllabus is available from ABSA at:

https://www.absa.ca/media/1143/ab-054_4th_class_syllabus_new.pdf

Or SOPEEC at:

<https://www.sopec.org/>

After successful completion of this course you should be able to:

- Elementary Mechanics and Dynamics
 - Perform basic calculations and solve problems involving mechanics, forces, vectors, velocity, work, friction, and power transmission.
- Elementary Chemistry and Thermodynamics
 - Explain basic principles of chemistry, thermodynamics, heat transfer, and the thermodynamics of steam.
- Jurisdictional Legislation, Codes and Standard for Power Engineers
 - Describe the purpose of the Jurisdictional acts, regulations, and Codes with respect to boilers, pressure vessels, and piping.
- Power Plant / Heating Plant Safety
 - Describe general plant safety in Power, Heating, Pressure, and Industrial plants that employ Power Engineers.

- Environment

- o Explain how the environment is related to operating a plant and how gas, noise, liquid, and solid emissions affect plant operation.

- Material and Welding

Describe the mechanical properties of engineering materials and alloys, welding processes, and inspection and testing methods used in plants.

TRANSFERABILITY:

Nontransferable, there are no transfer agreements in place.

EVALUATIONS:

Assignments: 10%

Unit Exams: 40%

Final Exam: 50%

Grading Chart for courses with Alpha Grading:

Alpha Grade	4-point Equivalent	Percentage Guidelines	Alpha Grade	4-point Equivalent	Percentage Guidelines
A+	4.0	95-100	C+	2.3	67-69
A	4.0	85-94	C	2.0	63-66
A-	3.7	80-84	C-	1.7	60-62
B+	3.3	77-79	D+	1.3	55-59
B	3.0	73-76	D	1.0	50-54
B-	2.7	70-72	F	0.0	00-49

COURSE SCHEDULE/TENTATIVE TIMELINE:

11 weeks, from September 5 – November 17, 2023. Tests will be held during the course as chapters and units are completed.

STUDENT RESPONSIBILITIES:

Students must be prepared to pre-read chapters and objectives prior to them being covered in class. Students must also be prepared to complete the online quizzes at the same time as the chapters are

covered and other Instructor assigned assignments during out of class time. Students must complete all courses with no failing grades and a minimum of 67% and attend a minimum of 80% of all classes and 100% of labs to successfully complete the program.

STATEMENT ON ACADEMIC MISCONDUCT:

Academic Misconduct will not be tolerated. For a more precise definition of academic misconduct and its consequences, refer to the Student Rights and Responsibilities policy available at <https://www.nwpolytech.ca/about/administration/policies/index.html>.

**Note: all Academic and Administrative policies are available on the same page.
